

Coronavirus Education Mirage

After 25 lost instructional days, here are the San Diego Unified School District (SDUSD) Fantasyland educational “standards” being represented by incompetent Elementary School Superintendent Cindy Marten and backed by the corrupt School Board led by Richard "Tricky Dick" Barrera:

- ZERO planning input or involvement allowed from Parent, Guardian, Student or Community Stakeholders.
- ALL Parent, Guardian, Student and Community Stakeholders are to blame for any failures
- No District, County, State or Federal Testing to measure amount of educational erosion
- No uniform, published, enforced Teacher performance standards – According to [SDUSD/SDEA MOU](#) , no disciplinary action can be taken during this Sandimic.
- No Class Scheduling standards...decisions left up to individual School/Teacher
- No meaningful Student grading – grades can only go up.
- No Student or Teacher attendance standards
- No verified/audited/published financial plan for thousands of frantically distributed Chromebook Laptops and Hotspots to Students including associated financial risk.
- No verified/audited/published Computer/Internet access reports for ALL Students by standard socioeconomic category.
- No verified/audited/published class logon or participation reports for ALL Students by standard socioeconomic category.
- No verified/audited/published plan or attempt to make up lost instructional days.
